## Shaw's Hot Springs.

These springs are the most popular bathing resort in the State. The baths are not only a luxury, but very beneficial and invigorating, and can be had at any temperature or depth. The dressing rooms are supplied with comfortable fires if desired. The analysis of these waters shows their medicinal qualities to be excellent. The swimming pond is large and elegant, ranging in depth from three feet to six feet, and kept at a temperature of 98 degrees (blood heat), is sixty feet long by twenty-four feet wide, and supplied with spring-board, trapeze, swing rope and shower bath. A delightful swim can be had here at any time of the year. The price is very moderate; 50 cents per bath including ride to Springs and back in the bus that runs for the accommodation of all bathers. d7,1w

## For Rent.

Two furnished rooms, Cor. Musser and Plaza streets, immediately opposite the Capitol. Apply on premises. Rent cheap. n4,1w

In a recent article in the Youths Companion, on "How to cure a cold," the writer advises a hot lemonade to be taken at bed time. It is a dangerous treatment, especially during the severe cold weather of the winter months, as it opens the pores of the skin and leaves the system in such condition that another and much more severe cold is almost certain to be contracted. Many years constant use and the experience of thousands of persons of all ages, has fully demonstrated that there is nothing better for a severe cold than Chamberlain's Cough Remedy. It acts in perfect harmony with nature, relieves the lungs, liquefies the tough tenacious mucus, making it easier to expectorate, and restores the system to a strong and healthy condition. Fifty cent bottles for sale by G. C. Thaxter.

Tom Oliver of the Carson & Tahoe Flume Company, has gone to Canada to visit his mother, whom he has not seen for twenty-four years.

Fears of a dry year the coming season are fast giving way to a more cheerful outlook. The wet weather the past month would seem to warrant the belief that we were going to have a warm, open, wet winter and a prosperous year to come.

An old resident and expert miner of Nevada county, California, says that within eight months there will be seen in Nevada City and Grass Valley a greater gold production than ever before known in the oldest quartz-mining camps on the Pacific Coast.

Jay Gould is said to be worried over the possibility of the telephone becoming a formidable competitor of the telegraph. Let Congress provide for a postal telegraph, and a postal telephone service if necessary, and then the people can get good service at reasonable rates.

Senator Stewart is certainly entitled to the gratitude of the people of the State. He was in his seat at the opening of the session and introduced about twenty bills, many of them looking to the relief of Nevada. The Senator is a hard worker and will do his share towards bringing the State from under the cloud of depression that has so long hovered over us.—Gazette.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was Chamberlain's Cough Remedy cured her of croup, and in turn administers it to her own offspring and always with the best success. For sale by G. C. Thaxter.

## DIED.

On Tuesday evening Geo. McLoughlin of the Mint, received a telegram announcing the serious illness of his sister Maria, who was residing in Oakland. He made preparations to go to her bedside but before the train left he received another telegram announcing her death. He is now in the city to attend the funeral. This is a sad affliction for Mr. McLoughlin as it is the second sister he has lost in three months.

## Married.

## FROM SUNNY FRANCE.

What a Paris Paper Has to Say of Nevada

The APPEAL is in receipt of a copy of *Le Gaulois*, a paper published in Paris, containing a long article on Nevada's mineral exhibit at the World's exposition. It says:

The State of Nevada is in the extreme West of the United States and traversed by the railroad from New York to San Francisco.

It is bounded on the north by the Territory of Idaho, on the west by California, on the south by Arizona, and on the east by Utah. The population is not more than a few hundred thousand inhabitants, and the Capital, Carson, has not more than 7,000 people. But its climate is lovely. The air here is the purest in the State and is very favorable to the curing of pulmonary affections, especially asthma. There are besides, mineral springs excellent for gout and rheumatism.

But the most important town, and the oldest is Virginia City. This dates from 1860, and owes its existence to the mines. Here are found the mines of Mr. Mackey, in the lode which bears the name of Comstock.

The mines of Nevada are of un-  
vada are of unknown wealth. We name the most celebrated districts: Austin, Aurora, Battle Mountain, Belmont, Be-o-wa-we, Candelaria, Churchill, Cornucopia, Douglas, Eureka, Esmeralda, Elko, Golconda, Lander, Lincoln, Lyon, Hawthorne, Humboldt, etc.

But Nevada is not only rich in precious minerals of all sorts. It also possesses great wealth of animals and vegetables. Reno is noted as a great market for cattle and is the commercial center of the country. The mountainous part amid the Sierra Nevada's offer the most enchanting views, especially at Lake Tahoe, which is at an altitude of 2,000 meters. The greater part of Nevada is in different communication with all the great lines of railways, which traverse today the North American continent from the Atlantic ocean to the Pacific. The climate is the mildest in the world. Few tempests, no floods, nor great heat or cold.

There are throughout many valleys, principally in the south of the State, which offer great advantages. We announce elsewhere the approaching publication of a book on the State of Nevada. We reproach ourselves and others in France (or, "other French people") for not knowing any more about this country.

## An Enterprise Growl.

The Enterprise never feels quite in the world unless it is making some sort of a kick at somebody. It has taken hold of the Ormsby Grand Jury methods and draws a comparison between the Roman Censors and the Modern Grand Juror.

It seems to be a matter of regret to the Enterprise that we are not running things in the old Roman style.

The Roman Censor's functions were magisterial and they had no such thing as Grand Jurors. Hence the corruption in high places and the decay of the empire. The Ormsby Grand Jury is taken to task for appointing an expert and the Eureka Grand Jury is abused for not appointing one.

The Ormsby Grand Jury appointed no expert; the County Commissioners appointed him at the Grand Jury's request, because the law allows it.

The Ormsby Grand Jury are designated as "ninnies," because they are not all expert accountants. The members of that body all had the good sense to frankly admit that they were not expert accountants.

Some Grand Jurors who have been in the same fix have slouched their work rather than admit that they did not know everything. However, if there is a single member of the Grand Jury who does not know more about the Roman Censors than the Enterprise, the APPEAL would suggest that Judge Rising declare his place vacant and draw a new name out of the box.

This is not very likely weather to hunt items in.

## A SPECIAL RATE

To All Who Attend the Board of Trade Meeting on the 21st.

SAN FRANCISCO, Dec. 7, 1889.

Mr. Allen C. Bragg, Secretary of the State Board of Trade, Reno, Nev.—DEAR SIR: Yours of the 4th inst. received. We will make a rate and a third for the round trip from all points on our line in Nevada to Reno and return on the occasion of your meeting at that point on December 21st for the purpose of organizing a State Board of Trade, and will send you certificates for distribution to the delegates, entitling them to the concession.

Full fare must be paid in going to Reno and the receipt of the selling agent taken on the certificate, which latter must be presented to you during the meeting for certification over your signature that the holder has been in actual attendance thereat. When properly filled out as its form requires, and presented to the agent at Reno within forty-eight hours after the close of the meeting, such certificate will be authority for the sale of an unlimited first class ticket to starting point on our line at one-third of the regular rate.

Very respectfully,  
T. H. GOODMAN,  
Gen. Passenger and Ticket Agent.

The press of Nevada should take pains to let the fact be known that the Southern Pacific Company has granted special rates and make the contemplated movement a success, for it means much to this State.

## Presidential Nominations Confirmed.

WASHINGTON, Dec. 10.—The Senate this afternoon confirmed the following nominations: Robert V. Porter of New York to be Superintendent of Census; Lewis A. Groff of Nebraska, to be Commissioner of the General Land Office; William Stone of Iowa, to be Assistant Commissioner of General Land Office; James M. Townsend of Indiana, to be Recorder of General Land Office; General Green B. Raum, Commissioner of Pensions.

## Order for the Mints.

Director of the Mint Leach has issued the following important circular: The Superintendents of the Mints at Philadelphia, San Francisco, New Orleans and Carson will purchase, when presented in sums of \$3 and upward, mutilated and uncurrent United States silver coin, at a price fixed by the Director of Mint for silver contained in gold deposits. Uncurrent coins should be transmitted to the Mints by registered mail or express, charges prepaid, the value to be returned in same manner at seller's expense and risk.

The Senators and Representatives from the Pacific and Northwestern States have a Congressional Association. At the preliminary meeting Senator Stewart presided and a committee was appointed to perfect the organization, which is to include Oregon, Washington, Montana, Idaho, Wyoming, North and South Dakota, Colorado, Nevada and California. The organization is to be non-partisan and devoted to the co-operative work in all matters in which the region represented is interested. All the States and Territories named are interested in irrigation and silver, and possibly by united action, the Senators and Representatives may be able to accomplish some legislation that will be beneficial to their constituents.

## Oregon Weather.

This weather is regarded by old webfooters as regular Oregon weather, and they take special delight in calling attention to it. If it keeps up a while longer, membranes will begin to grow between the toes of sagebrushers.

ADVICE TO MOTHERS.—Mrs Winslow's Soothing Syrup should always be used for children teething. It soothes the child, softens the gums, allays the pain, cures wind colic, and is the best remedy for diarrhea. Twenty five cents a bottle.

Go to Will Wright for a good Photo. He is still at Peterson's gallery over Thaxter's store turning out cabinets at \$5 per dozen in cloudy or fair weather. n25
